SUMMARY

Software Engineering Technology student at Conestoga College (Level 3, Co-op) with a 3.6 GPA, focused on C#/.NET backend development, SQL Server, and network programming. Seeking a co-op placement where I can build and ship real backend features.

EDUCATION

Conestoga College — Waterloo, ON

Sep 2025 – Apr 2029 (Expected)

Advanced Diploma in Software Engineering Technology (Co-op) | GPA: 3.6

- Ranked in the top 5 of the first-year SET cohort by GPA.
- Coursework highlights: Python, C programming, web development (HTML/CSS, JavaScript, PHP, ASP).

SKILLS

Languages: C#, C, C++, Java, JavaScript, SQL, Python, PHP, HTML/CSS

Backend & Data: ASP.NET (.NET 10), Microsoft SQL Server, socket programming, Classic ASP

Tools & Platforms: Git, GitHub, Linux (fundamentals), Microsoft ecosystem

EXPERIENCE

Eyval — Waterloo, ON

May 2026 – Sep 2026

UI Designer

- Designed the user-facing pages of the product, including the navigation bars and the visual theme.

PROJECTS

Concert Seat Booking System | Python

github.com/Drezvani2003/concert-seat-booking

- Built a menu-driven reservation app (team of 2) to load, add, edit, cancel and save seat layouts from files, with input validation and exception handling.
- Wrote a 16-case test plan covering file loading, invalid input and save/reload; all cases passed.

Pizza Bill Splitter | C

github.com/Drezvani2003/pizza-bill-splitter

- Console bill-splitting tool using function pointers, dynamic memory (malloc/realloc/free) and append-mode file logging through a FILE** handle.
- Hardened all input with scanf return checks and buffer clearing; produces an end-of-shift tip report (total, average, highest).

RPSLS Web Game | C (CGI) • PHP • JavaScript

github.com/Drezvani2003/rpsls-web-game

- Built one game two ways: a C CGI executable (manual query-string parsing and URL decoding) and a PHP app, both with client- and server-side validation.

Hi-Lo Guessing Game | Classic ASP • JavaScript

github.com/Drezvani2003/hilo-game-asp

- Session-based game where the server owns the rules: range checks, random number generation and win detection.

ADDITIONAL

- Accepted into the Conestoga Co-op stream; seeking a co-op placement in the Waterloo Region / GTA.
- International student on a co-op work permit, authorized for co-op placements in Canada.
